

EXCHANGE MORE OFTEN, SAVE MORE MONEY!

Hidden fees, mysterious surcharges, and changes of conditions behind your back? **No. We do it differently... We play fair!** Unlike our competitors, **with us you will save on currency exchanges.**

Your rates are determined based on **the cumulative volume of currency conversion** for the last 90 calendar days. According to this volume, we will assign you a **corresponding level, with different rates** for individual currency groups.

What is our FX rate?

It represents a surcharge to the intermediary bank rate – **the most favourable** one that can be arranged for you on the market.

Exclusive offer for the first 90 days!

We understand that a good start is crucial. For the first three months, enjoy rates as low as 0.25% (START level). Rates like that pay off!

LEVELS BASED ON THE VOLUME OF EXCHANGE TRANSACTIONS:
